Washington University, USA

Eligible Participants

**Workshop
Objectives**

**Workshop
Highlights**

**Workshop
Outcomes**

WHO?

- For early to mid-career medical researchers from academic institutions

WHY?

In this highly participatory, intense, and interactive workshop, our expert faculty will provide a comprehensive overview of the field of Implementation science and how to:

- Undertake real-world implementation science
- Implement and translate research findings into policy and practice.
- Use appropriate theoretical models, research designs, and measurement;
- Collaborate and network within India and globally in the new field of implementation science

How?

- Crisp interactive lectures
- Panel discussion
- Facilitator-led small group sessions
- Group presentations

WHAT?

The theme of workshop being Overview of Implementation Science, Models, Frameworks and Theories, participants will develop sufficient understanding and gain skills in this field
